

BROKK 120D

NEW 2016!

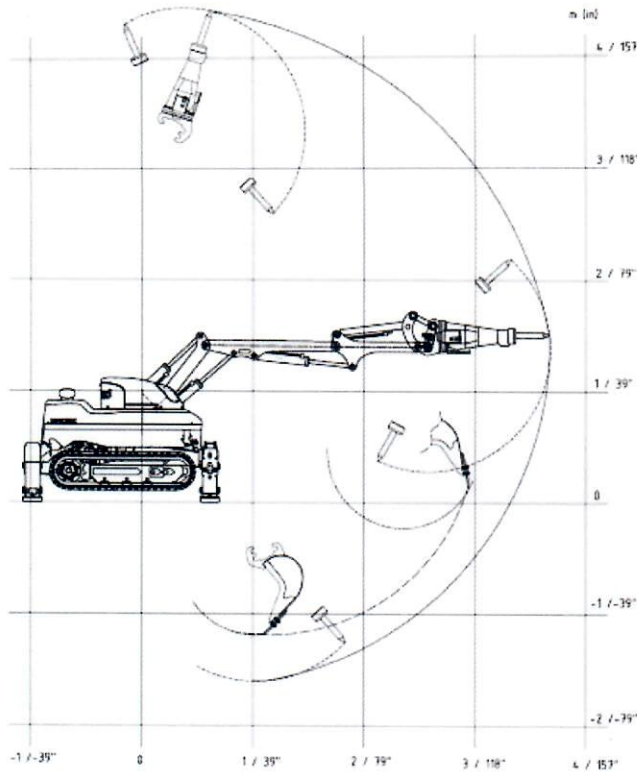

Cordless, Fearless, Relentless

The **BROKK 120D** is flexibility without compromise. It's the world's smallest diesel-driven demolition machine. It's small size enables it to enter through any standard door opening and makes it easy to maneuver in tight spaces. Running cordless, it's driven by a powerful diesel engine that can operate for a minimum of eight hours without refueling. And all this flexibility comes without sacrificing any of the power or performance of its electrical sibling, the Brokk 100.

- ▶ World's smallest diesel-driven demolition machine
- ▶ Ideal for sites that lack a reliable power supply
- ▶ Tool compatibility with the Brokk 100
- ▶ Swift tracking speed for high mobility
- ▶ New rugged electrical system
